

See on balā also Ronald E. Emmerick, Arsenic and Sida, in Les médecines traditionnelles de l'Asie, Actes du Colloque de Paris, 11-12 juin 1979, édition préparée par G. Mazars, Publication du Séminaire sur les Sciences et les Techniques en Asie, Université Louis Pasteur, Strasbourg, 1981, p.93-102.

(6) = sthūlavātyāḷaka (Vśś; possibly identical with mahābalā, because, according to Kai.Nigh., oṣadhivarga 1051cd, vātyāḷaka is a synonym of balā);

(7) = vidāṅga = vidāṅgā: Embelia ribes Burm.f. (Vśś);

(8) = jayantī: Sesbania cannabina (Retz.) Pers. = S. aculeata Pers. (Vśś);

(9) = vanajaśanavr̥kṣa (Vśś: unidentified).

madhusrava

(1) = morāṭa (Dha.nigh. 1,15; Rā.nigh. 3,13);

(2) = madhūka (Bpn, āmrādīphalavarga 95; Na 1,nr.307; Nś. 110cd-111; MW; PW);

(3) = mūrvā: Sansevieria zeylanica Willd. (MW; PW).

madhusravā

(1) Maerua arenaria Hook.f. et Thoms. (Bt.);

(2) = mūrvā (Hṛdayadīpaka 47; Ma.nigh. 1,224; Rā.nigh. 3,10-11; comm. on Śivakoṣa 509; Vśś; MW; PW) (cf. madhusrava above);

(3) = piṇḍakharjūrī (Dha.nigh. 5,55; Vśś; MW);

(4) = madhuyastī (Dha.nigh. 1,142; Rā.nigh. 6,182; Nś. 189; Vśś; MW; PW);

(5) = haṃsapādī (on this see below) (Dha.nigh. 4,111; Ma.nigh. 1,259; Pa.ra. 390; Rā.nigh. 5,165-168; Śivakoṣa 509; Vśś; MW; PW);

(6) = jīvantī (Amarakoṣa 2,4,142; Bpn, guḍūcyādivarga 50; comm. on Śivakoṣa 509; Vśś; MW; PW);

(7) = śatāvārī (Nś. 295cd-296);

(8) = raktalajjālukā (Vśś: unidentified);

(9) Wattakaka volubilis (Linn.f.) Stapf = Dregea volubilis (Linn.f.) Benth. ex Hook.f. = Hoya viridiflora R.Br. (MW; see WIRM 10,p.564 and Chopra on the nomenclature).
